

The background of the entire page is a photograph of a winter sunset. The sun is a bright, glowing orb positioned slightly to the right of the center, just above the horizon. The sky is a gradient of colors, from a deep blue at the top to a vibrant orange and red near the horizon. The foreground is a flat, snow-covered field with some dark, thin stalks of grass or reeds visible. In the distance, a dark silhouette of a forest line is visible against the orange glow of the sunset. The overall mood is serene and contemplative.

**PROPOSAL**

**HUMAN CONNECTION INSTITUTE**  
Sperry Andrews, founder/codirector  
Honolulu, Hawaii - 505-629-0700

**Mission Statement - all underlined words are links to research**

*HCI is an internationally-based institute exploring how every man, woman, and child is linked by our innate capacity for being collectively conscious. We have found that how we pay attention to ourselves, to one another, and to nature determines the quality of our relationships in concrete tangible ways. Our research spans all the branches of science, exploring inter-subjectively as well as objectively why we have avoided sharing a common sense. We are able to unlearn this habit. Our interconnectedness can be felt and thought intuitively by every human being. Forty years of trial and error research with hundreds of multicultural groups has shown us how to live in harmony. Originality and authenticity for creative development in families, relationships, and communities can be strengthened. Problem solving in politics, as well as optimum performance in sports and any type of collaborative activity from surgical teams to symphony orchestras is greatly enhanced. Rapid decision making in business allows organizations to by-pass hours of meeting time. As billions of us learn to pay attention together, this promises to eliminate poverty, pollution, disease, crime and war. To survive and thrive, an Empathic Civilization is a necessity!*

Sperry's **Bio**:

# NoProblem NoReaction SOLUTIONS

Awakeness has no image, yet – like a mirror – it unites, reflects, and transforms our imaginations, causing love and awe; by sharing awakeness, the delusions of separation dissolve, awakening and enlightening our selves and all of humankind.

This simple way of being together allows anyone interested to actually share a mirror-like 'awakeness' (first time) with others inside of ninety minutes. Collaborating on being awake as awareness awakens our minds to the primordial nature of mind, the relative becomes conscious of the absolute.

Career hypnotists have exclaimed that this practice de-hypnotizes us, as it frees us from exclusively clinging to things and thoughts as our sole way of structuring our consciousness.

I have been experientially exploring this way of 'being wholly complete' with thousands of people internationally in multi-cultural groups (for free) for nearly forty years.

You too, can give it a try (for free) and you will see. Experience gradually establishes an enduring healthy personal and social habit, a pathless Peace of Unconditional LOVE which Humanity can Ripen until it is shared by ALL.

## ***Our Mission is to Awaken Humanity's Heartfelt Intelligence***

*“Sperry Andrews’ approach to facilitating collective and mindful group consciousness is vital for bringing together and empowering people in everyday venues, as well as in business settings and corporate cultures. I have experienced first-hand how simple yet powerful Sperry’s approach is, and how it can easily be applied across diverse settings and populations. His process enables insight to spontaneously arise in a spirit of openness and conscious communication that facilitates people moving forward to implement creative solutions to individual and group movements. I wish every person, business, and corporate culture would integrate and implement Sperry’s work into the everyday hum of both workplace culture and personal life. His work encourages interactive, energetic, and authentic communication and creativity to emerge effortlessly.”*

# Interconnected Consciousness

## OUR MISSION

***De-Hypnotizing Humanity*** is an educational initiative intent on successfully igniting our collective heartfelt intelligence. By engaging the altruistic heart of humanity and heightening widespread empathic sensitivity, we will be strengthening the architecture of human consciousness and awakening our own innate Emotional Intelligence (EI). In year one, we assess innovators' track records and the potential of their proposals: e.g., feature and documentary films, video games, social media apps, technological innovations, scientific research and conferences, public events, talk shows, reality TV, and forms of print media. ***Winning Projects will be funded for four years.***

## OUR VISION:

To support solutions that lead to the elimination of poverty, pollution, disease, crime and war by co-creating an empathic civilization on this planet.

## THE CRITICAL NEED FOR OUR SOLUTION

A grave lack of mutual understanding about the essential importance of personal and collective consciousness forebodes dire consequences.

Competing forces have attempted to impose top-down government, while 'this' bottom-up egalitarian solution supports and strengthens all life and all of us.

We now have the digital technology to invite every person on earth to vote, allowing for a long-awaited shift to global grass-roots governance to ensure the greatest good for all.

***De-Hypnotizing Humanity can play an essential role at this most pivotal of times.***

# The Human Connection Institute (HCI)

For thirty years with thousands of self-selected multicultural participants, HCI has experientially explored how to reliably and rapidly cultivate a commonly sensed heartfelt conscious intelligence through Empathy Accelerator Initiatives (EAI).

**NOTE:**

All underlined words link the reader to research that is fundamental to the success of this proposal.

This experiential process is validated by objective research to ensure accelerated consensus decision making. It has been measured to cohere EEG readings between, among, and within the right and left brains of twelve participants on real-time group bio-feedback equipment, cited by Erwin Laszlo, "The Whispering Pond" p. 109, Element (1996)

# GLOBAL AWAKENING CHALLENGE

## Igniting Worldwide Collaboration by Inspiring Collective Intelligence

The Human Connection Institute will assist in resolving one of the greatest threats facing humanity today. Empirical scientific demonstrations and undeniable experiences promise to successfully popularize our own commonsense through the co-realization of an interconnecting, all-loving, wholly embodied intelligence.

This global collaboration will attract innovators and teams--everywhere on the planet--to propose creative solutions that will inspire the collective intelligence of humanity to ignite and actually awaken.

A **Selection Committee** will assign funding based on a review of exceptional achievements and promising proposals.

Chosen teams will begin a four year documented development of their projects sharing their evolution with the whole of humanity through Reality TV broadcasts via social media, to then be re-presented (again) in feature and documentary films.

## DE-HYPNOTIZING HUMANITY INITIATIVE:

During this four year program, project leaders and their teams will go through a training process with exceptional scientists and business leaders to ensure their success.

Mentors and consultants will be assigned to each team to guide their development. Teams will meet four times (in person) each year during the program as well as remotely on a more regular basis to plan and develop their projects.

**Phase 1: Applicants** will participate in a six month review process to demonstrate the potential of their project. Projects can include any level of creative initiative that effectively unites the body, heart, and mind of humanity.

**Phase 2: Chosen teams** will be funded to begin a four year Empathy Accelerator Program. Participants will be paired with mentors and guided to develop their project's vision and strategy. They will be financed based on the size of their team and the scale of their projected needs.

**Phases 3&4:** During this time extensive documentation will be gathered. Teams, project leaders, and mentors will appear on talk shows, news interviews, ongoing Reality TV podcasts, and print media treatments. Funds will (also) be allocated to video and media teams to evoke the heart of these compelling co-creative activities.

**Phase 5: While completing their projects**, participants will be financed to further the impact of their work by ensuring these projects continue to evolve and grow sustainably.

## DOCUMENTARY SERIES:

**Six chosen teams** will be assigned video production crews to document their journey from start to finish. Documentary producers and directors will develop inspiring videos that tell the full story of all these projects including the impact of their initiatives.

Their journeys will be broadcast across all social media platforms in the form of **reality TV shows**. The world will follow along as our teams go through the process of ideation, implementation, and realization.

This style of media strategy will demonstrate the dedication of these teams to help **De-Hypnotize Humanity**--to enroll as many of 'us' as possible. Regular updates, stories and posts will also strengthen engagement intimately uniting viewing audiences with the ever evolving awareness of each team and their efforts.

Upon completion, a transformative series of feature and documentary films will further anchor viewers through a shared visceral and vicarious experience of awakening collective intelligence.

By 'breaking the 4th wall', both teams as well as audiences will reliably enter into an outstanding and unforgettable shared-experience of humanity's true potential--for more than just transformation: for what we may call species-wide enlightenment.

*“Before that moment of time [i.e., the beginning of spacetime], all science has to rely on is unfounded speculation, or at least that was the situation before Riemannian geometry was modified by incorporating point-elements when Andrews developed his intuitive notion of a 0-D point Void. Everything in our scientific model of reality changes by adopting the 0-D point Void as the original Riemannian point-element from which our more advanced Riemannian space-time structure of physical reality evolved.”*

Sperry Andrews shares a six year theoretical physics partnership with James E. Beichler, PhD co-creatively exploring a dimensionless mechanism within human consciousness; how point-centered processes could have generated all phenomena and the expansion of our universe, including a Self-organizing non-material consciousness, wherein its dimensional byproducts and measurements re-produce what is physical, emotional, mental, soulful, and spiritual.

# STRATEGIC PARTNERS

"I have known and worked with Sperry for several years. He has an amazing skill of bringing groups of strangers into an effortless rapport in a very brief period of time.

The depth of connection and spontaneous harmony that this process evokes with ease and rapidity, is remarkable.

On numerous occasions I have observed large groups of people come into rapid consensus and resolve formerly "unsolvable" interpersonal problems.

As a business owner myself, I recommend Sperry's work as a simple, skillful method of getting teams on the same page and headed in the same direction."

**Dr. Miller and Dr. Klisanin have already agreed.**

And, if our proposal is adequately funded, other past collaborators will be asked to participate.

**Bruce Lipton, PhD** is a recognized leader in the field of epigenetic research and education. He is an internationally recognized speaker and author--bridging science and spirit--bringing his cutting-edge presentation(s) to our creative teamwork as well as our overall project.

**Richard Miller, PhD** is founder/director of the I-Rest Institute. He has trained and now coordinates over four thousand therapists worldwide. He has offered to guide the training of coaches, ensuring our film teams share a 'commonly sensed observer' during production--while also serving as a consultant on this project.

**Dana Klisanin, PhD** is the founder and CEO of Evolutionary Guidance Media in New York City. named in Forbes, as one of fifty most influential female futurists, she explores how we can use information technologies and new media to promote human wellbeing and planetary flourishing. She is a pioneer in 'digital altruism' and inventor of the Cyberhero.

**All 0D points (together) provide a 'primal virtual awareness' (a 'knowing' without knowledge) wherein 4D awareness-of-this-awareness (i.e., consciousness of awareness) 'stores' experiences (as memories) in the nonlocal 0D field, forming and unforming sentient biological lifeforms. via self/Self/no-Self awareness.**

## *Comparing and Contrasting Our Initiative:*

### Maharishi University

has empirically demonstrated the efficacy of Transcendental Meditation to decrease 'negativity' while heightening 'positive' social indices, to the satisfaction of both impartial professional scientists and law enforcement officers. Offers to collaborate over more than twenty years have so far been disregarded. By contrast, we free participants from dependency on a costly proprietary technique serving both followers and non-followers of their eastern guru.

### The Global Coherence Initiative

is a science-based program designed to unite millions of people in heart-focused care and intention--to shift global consciousness from instability and discord to balance, cooperation and enduring peace. Their research, training and technologies are aimed at guiding all of humanity toward realization of its full potential--to rely on the qualities of the heart in its role as caretaker of future generations and our planet. Their core team at HeartMath Institute agreed to collaborate--if there is funding.

# SPERRY ANDREWS

"Sperry created an experience of 'group consciousness' where the barriers between us melted, and we came into a co-creative flow.

In this space, we were completely free from inhibition, doubt, judgment, or fear. We had access to much higher levels of understanding, compassion, wisdom, and trust. It seems that this kind of experience would prevent much of the miscommunication, misunderstandings and conflicts that often arise in a work environment. There was also a sense of super-charged creative energy and infinite potential – it felt like we could accomplish anything. This creative state has helped me to be far more effective. I now experience that my work seems to be created through me effortlessly, saving hours of productivity. The state that occurred in the group setting provided a foundation for harnessing the full intelligence and wisdom of a team. It evoked a kind of creativity and innovation that is far beyond what we normally experience."
